

POSEIDON SINGLE/DOUBLE FENDER (BITTS OPTIONAL)

- Easily installed utilizing the barges interlocking connection system.
- Commercial marine rubber fenders for energy absorption. Secured to the frame using 1" stainless steel fasteners.
- Constructed of heavy steel plate ranging from ½" to 1" thickness for maximum strength and durability.
- Dual lift rings for safe and easy handling during installation.

- 3" pipe bull rail along top edge of frame provides chafe protection for mooring lines.
- Steel grit blasted and then painted with Poseidon/Baril DCC coating system including zinc rich primer for a lasting finish in the marine environment.
- Zinc anodes for additional corrosion protection.
- Dual 8" SCHED 80 pipes form a double bitt for secure attachment of mooring lines.
- P2-7ft design shown; similar versions available for P10, P2-5, P1-5 style barges.
- Shipping weight = 3,300 lbs.
